

**Join us for a FREE all day trip to
Plum Island Animal Disease Center
September 27**

Since 1954 Plum Island Animal Disease Center (PIADC) has served as the nation's premier defense against accidental or intentional introduction of foreign animal diseases, including foot-and-mouth disease. Plum Island is the only laboratory in the nation that can work on live foot-and-mouth disease virus. The lab and its staff of nearly 400 employees provide a host of high-impact, indispensable preparedness and response capabilities, including vaccine R&D, diagnostics, training, and bioforensics.
